

# GLOBAL FREEDOM ACTION MANIFESTO

## WHAT DO WE KNOW AND HOW DID WE GET HERE?

- \* Children Should not be given Covid-19 Vaccinations because they don't need them and they are too risky (this is smart and compassionate health care).
- \* Millions have needlessly died or suffered severe health impacts because of the Government's failed Covid-19 vaccine/prevention policies and the hiding/blocking of available treatments (this is murder).
- \* Governments and Big Med have replaced the "Doctor-Patient Human Medical Treatment Paradigm" (this is wrong).
- \* Current Government Covid-19 vaccination policies and mandates (including vax, masks, testing and social distancing) are not effective (this has been obvious for a long time).
- \* Governments, Big Med, Big Pharma, Big Tech, Big Business, Big Media and Global Elites are working together against citizen's interests (this is an evil cabal).
- \* Governments have used Covid-19 fears and psychological warfare to take our freedoms and impose controls (this is government tyranny against citizens).
- \* Main Stream Media and Big Tech have worked together to restrict free speech, hide the truth and spread propaganda (this is criminal).

## WHAT MUST WE DO?

We must all be brave and work together to stop these travesties, obtain justice for victims, and punish the guilty (this is protecting our loved ones' and children's destiny).

# GLOBAL FREEDOM ACTION PLAN

## Phase 1 Planning and Organization

- 1.1 Create Group Infrastructure
  - 1.1.1 Document Group Charter and Taxonomy
  - 1.1.2 Define Organization Structure and Operating Rules
  - 1.1.3 Identify Funding Requirements and Options
  - 1.1.4 Build Communication and Data Tools
  - 1.1.5 Establish Accounting and Reporting Infrastructure
- 1.2 Develop Baseline Work Plans
  - 1.2.1 Define Outcome Elements
    - 1.2.1.1 Define Desired Outcomes and Priorities
    - 1.2.1.2 Define Critical-Success-Factors (CSF's)
    - 1.2.1.3 Identify Target Organizations and Individuals
  - 1.2.2 Define Tasks and Sub-Tasks
  - 1.2.3 Estimate Sub-Task Resources
  - 1.2.4 Balance Tasks and Schedules
- 1.3 Form Action Groups
  - 1.3.1 Enroll Action Members
  - 1.3.2 Establish Management Structure
  - 1.3.3 Conduct Orientation and Training
- 1.4 Load Master Schedule
- 1.5 Monitor and Report Progress

## Phase 2 – Replace or Sanction Target Organizations and Individuals

- 2.1 Post To Social Media
- 2.2 Participate In Protest Marches
- 2.3 Sponsor Litigation and Legislation
- 2.4 Conduct Recall Referendums
- 2.5 Sponsor and Elect Candidates
- 2.6 Inform The Public

## Phase 3 – Restore Global Human Medical Rights

== > "Doctor-Patient Relationship" as the primary human health treatment paradigm to replace pandemic-enabled government medical overreach.

## Phase 4 – Improve Covid-19 Treatment Results and Patient Safety

- 4.1 Stop Covid-19 VAX for Those Under Age-21.
- 4.2 Stop Using Remdesivir, Paxlovid and Molnupiravir
- 4.3 License and Make Widely Available In-Home OTC Covid-19 Treatment Kits
  - == > Containing Ivermectin (IVM) or Hydroxychloroquine (HCQ) and other necessary components (e.g. Zinc, D3) similar to India Uttar Pradesh State or El Salvador
- 4.4 License and Make Widely Available In-Hospital Covid-19 Treatment (e.g. Monoclonal Antibodies)

## Phase 5 – Reverse Inappropriate Covid-19 Mandates and Protocols

- 5.1 Cancel Inappropriate Executive Orders, Directives, Policy Guidelines
  - ==> Current Covid-19 vaccinations, testing, masks, lock-downs and social distancing.
- 5.2 Cancel Inappropriate Emergency Use Authorizations (EUA's)
  - ==> Current Covid-19 vaccines and therapeutics; and, issue their respective Temporary Licenses to enable retroactive full medical liability.

## Phase 6 – Adjudicate and Administer Covid-19 Justice

- 6.1 Establish Needed Liability and Criminal Responsibility
  - ==> Retroactive, unlimited legal liability and criminal responsibility standards for Covid-19-related vaccine manufacturing, mandates, enforcement, treatment and information dissemination (including retroactive Temporary Licensing and liability for all previous Covid-19 vaccines and therapeutics used in government mandates).
- 6.2 Conduct Comprehensive, Independent Diagnostic Reviews
  - ==> Relevant Covid-19 policies, actions, and information dissemination practices and controls since the pandemic began.
- 6.3 Conduct Trials For Covid-19 Mandate Victims and Perpetrators
